

escape® M1 Air

When a problem becomes an idea

Premium Hi-Fi systems are bought to be enjoyed for years. So a lot of people don't want to part with their devices, even if they are not really up to date in terms of high-resolution wireless audio streaming anymore.

That is why we developed the M1 Air streaming DAC. A universal module that can be easily connected to most HI-FI systems and supports 192kHz / 24-bit hi-res audio files.

The M1 Air is equipped with Chromecast built-in, AirPlay 2, Roon, Spotify Connect and Bluetooth 5.0. This allows you to easily stream music services such as Spotify, Apple Music, Tidal, Qobuz, airable internet radio or podcasts from a smartphone or other mobile device.

Chromecast built-in

ROON
READY

airable

Bluetooth®

SPECIFICATIONS

Supports various systems for Hi-Res Multi-Room audio streaming (192KHZ/24-bit) over WIFI including Chromecast built-in, AirPlay2, Roon Endpoint and Spotify Connect. Lossless Audio Codec, Flac, APE and DSD support.

Apple® AirPlay 2 chipset

WIFI 1 x 1 Dual Band 802.11 a/b/g/n/ac

Bluetooth® 5.0

Digital interface - interaction via a customized **ESCAPE® REMOTE APP** for both iOS® and Android™.

Combined 3.5mm analog + digital optical toslink output. Maximum preamp output voltage (audio volume) adjustable via the Escape® Remote App in two levels: 1 Volt default set for use with the P9 (*) 2 Volts when the HIFI installation requires a higher output voltage. (*) Do not change the maximum output voltage to 2 Volts when using the M1 AIR in combination with the P9.

THD + Noise < 0.06%. Frequency Range 20Hz - 20KHz

Product dimensions 89mm (L) x 45mm (W) x 18.9mm (H)
